Description ▼

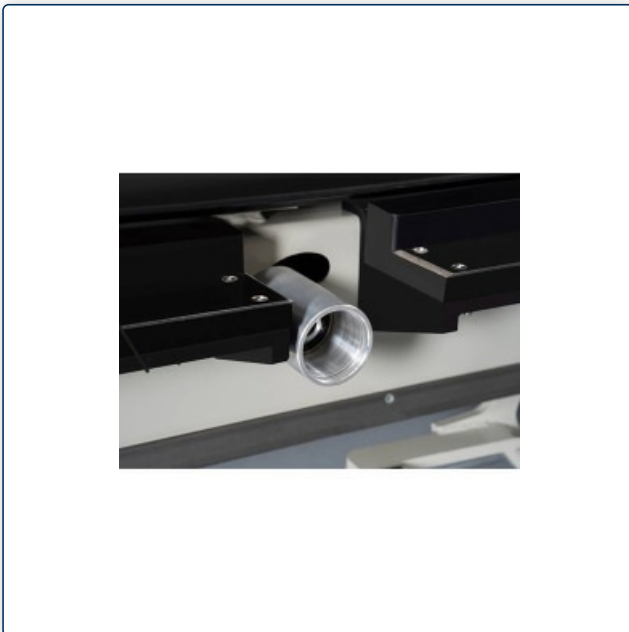

- Smooth and ergonomic operation
- Modular welded machine frame, torsion-free and self-supporting
- Scoring device for tear-free cutting quality
- Automatic deflection of the slatted frame during the sawing process
- Continuous center workpiece support for maximum flexibility
- Easy switching between vertical and horizontal processing
- Digital dimension stop
- Pedal-liftable transport rollers for easy movement of heavy panels
- Durable and precise material support for a stable workpiece position
- Pneumatic locking of the saw carriage
- Large opening for changing saw blades
- Integrated lateral dust extraction
- Practical document holder on the control panel

Manufacturer

Stürmer Maschinen GmbH
Dr.-Robert-Pfleger-Str. 26, 96103 Hallstadt, Germany
info@stuermer-maschinen.de

Media informations ▼

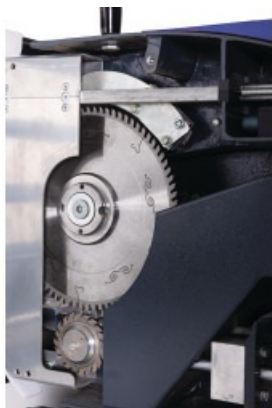

Transport rollers

Easy movement of heavy panels thanks to liftable transport rollers, the precise material supports ensure a stable workpiece position during processing

Workpiece support

Continuous middle workpiece support with digital longitudinal stop for maximum precision

Saw unit

Powerful 4kW saw unit with scoring unit and 60 mm cutting depth

Deflecting slatted frame

Automatic deflection of the slatted frame during the sawing process and closed gaps in the panel support for more effective chip extraction

Dust extraction

Integrated lateral dust extraction for optimum extraction performance

Control panel

Clear control panel for easy handling

Handling

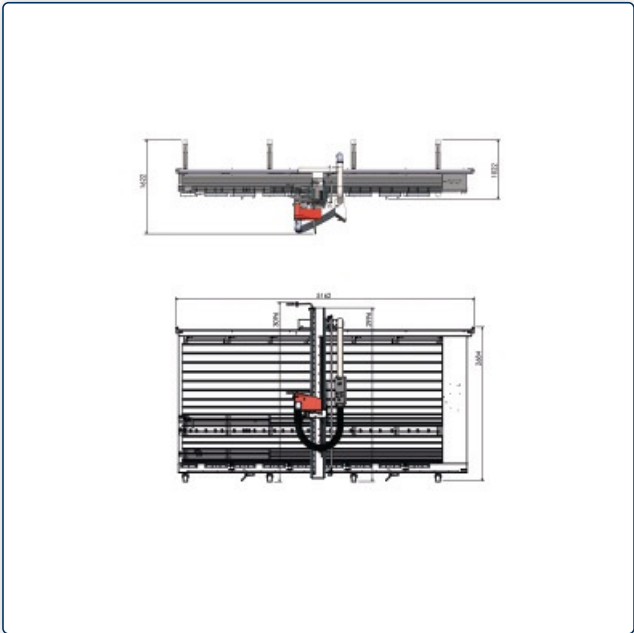

Quick and easy switching between vertical and horizontal machining for efficient work

Digital measuring stop

Integrated scoring saw blade for perfect cut edges

Technical data ▼

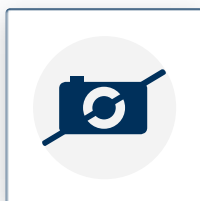

General features			
Max. cutting height	2200 mm	Max. cutting length	4100 mm
Cutting depth	60 mm	Saw blade diameter	250 mm
Saw blade speed	4800 min ⁻¹	Scoring blade diameter	80 mm
Scoring blade speed	8500 min ⁻¹	Number of stops	2 St
Sound pressure level	79.1 dB(A)		
Dimensions and weights			
Transport height max.	2800 mm	Length (product) approx.	5162 mm
Width/depth (product) approx.	1622 mm	Height (product) approx.	3096 mm
Net weight approx.	750 kg		

Extraction port			
Extraction duct diameter	100 mm	Number of extraction ducts	4
Min. extraction flow rate	1800 m³/h	Min. extraction speed	20 m/s
Electrical Data			
Drive motor output	4 kW	Supply voltage	400 V
Mains frequency	50 Hz		

Equipment ▼

Lower material support	Metal rollers	Evasive slatted frame	Automatic
Vertical measuring device	digital	Horizontal measuring device	digital
Panel positioning	manual	Locking the saw carriage	pneumatic

Accessories ▼

Saw blade

250 x 3.2/2.2 x 30 mm 80 TFZ L HP
