

# MagniLink PRO

– for an accessible workplace

# MagniLink PRO

## For **all** professionals

MagniLink PRO is designed with the ambition to be the ultimate system for all professionals, regardless of what they do. MagniLink PRO is a complete system incorporating most of the features desired by users from the start – and the rest are offered as accessories, to cover everyone's needs.

## Everything **fits**

MagniLink PRO leads the market with regard to working height – meaning that just about everything (including large books and file folders) will fit below the camera.

## Everything **connects**

MagniLink PRO can be connected to most PCs and Mac computers – or directly to a monitor or smartboard. Total freedom!

## Everything **shows**

High-quality camera with FHD 1080p in reading/distance/mirror mode deals with everything you need. The FHD resolution, combined with a powerful 20x optical zoom and a number of LVI image enhancement techniques, makes sure that you will always get a crystal clear, sharp and detailed image with natural and rich colours at **all** magnification levels.

## **Use** everywhere

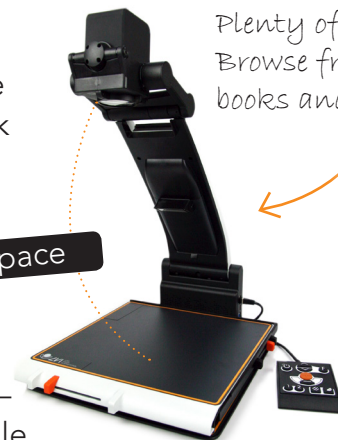

MagniLink PRO is portable. It's easy to fold down and unfold and your desk can be quickly cleared when you leave the office. It also comes with a carrying bag for easy transportation, e.g. from work to home. Add a battery for even more flexibility – and you can use it for up to 9 hours wherever you want.

*Automatic standby (adjustable) – gesture anywhere below the camera.*

Up to 46 cm free space

*Plenty of space! Browse freely in large books and file folders*

## Saves **everything**

Capture pictures with the reading camera – or record lectures with the distance camera and watch them again.

## **Confirmatory** screen

Selected functions are confirmed with clear information on the screen – you can always be assured that the correct function is selected. Choose between several languages in the OSD menu.

## Use **your own software**

The included MagniLink S software is compatible with several other commonly used software, such as ZoomText, SuperNova and iZoom in Windows 7/8/10.

## Add **your own functions**

The included control box controls all functions and allows an ergonomic position. Two buttons are programmable and can be set to your most frequently used functions and settings.

## **Powerful** accessories

Personalize MagniLink PRO with a convenient XY table, TTS (Text to Speech) and/or battery for maximized freedom. See page 6.

MagniLink Pro may be connected to  
an interactive Whiteboard!

**MagniLink PRO**  
– the professional solution for  
ALL visually impaired professionals!

## Accessories for improved efficiency and flexibility

### Convenient **dockable XY table**

Dockable and very stable XY table with X/Y friction brakes that makes it easier and more convenient to read longer texts.

### **Battery** for maximized freedom

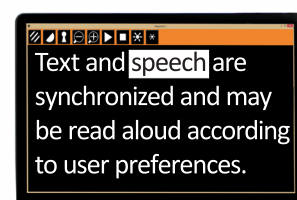

Battery providing up to 9 hours of work – use your MagniLink PRO anywhere.

### Powerful **TTS software for PC/Mac**

Software providing Full TTS (Text to Speech) functionality – scan a full A4 page in seconds and have it read aloud! For PC or Mac.

- **Scans a full A4/US Letter in just a few seconds**
  - allowing you to be more effective
- **Synchronized text and speech**
  - you can easily follow the text on screen while listening
- **Optimized presentation modes** (scroll text character by character, word by word, line by line or paragraph by paragraph) – choose the mode you prefer
- **Save text and edit in a computer**
  - no need for additional scanner on the desktop
- **High quality voices are included**
  - pleasant to listen to
- **Easy to operate**
  - easy to get started
- **Menues with voice feed back**
  - misunderstandings are avoided

*TTS increases your reading speed*

### MagniLink **monitors**

LVI offer professional, fully low-vision adapted 18.5" (HD) and 23" (Full HD) monitors. The design is adapted to MagniLink PRO and offers several low vision features, such as antiglare display.

### **Additional** accessories

We can also offer MagniLink tables, software for computers, magnifying/desk lamps, large print keyboards and more.
