AXLJ F TTCL Medium Voltage

Medium voltage cables 12–72.5 kV, designed for durability and long service life.
Quality-assured supply chain for reliable delivery.
Flexible and competitive

amokabel
CABLE FOR LIFE

We offer our customers flexibility in both cable design and custom-made lengths. We always strive for the shortest possible lead times.

All cables are manufactured at our factory in Alstermo, Sweden, where green energy from our own electricity production is a given.

AXLJ F TTCL Medium Voltage

Amokabel's medium voltage cables are single-core 12–72.5 kV, ranging from 1x95 mm² to 1x1200 mm².

The construction includes a conductor, insulation system, screening, and an outer sheath for mechanical protection and resistance to moisture and water.

This latest addition to our product family complements our power segment portfolio, enabling us to deliver everything needed for your projects.

With our medium voltage cables, you get a combination of sustainable production, documented quality, and flexible delivery capacity – all to ensure the success of your projects.

The Amokabel Guarantee – We stand behind the final product and its environmental documentation.

A flexible and competitive solution.

If you have any questions or specific requirements, please don't hesitate to contact us.
