

Assembly

Instructions

LITTBUS Covering to steel bookcase ends

	No. 1 Screw M6 x 38		
	No. 2 Bolt M6 x 32	Fitting 2x	Strip upper/lower 2x

1.

Assembly the upper and lower strip, use **Screw no. 1**.

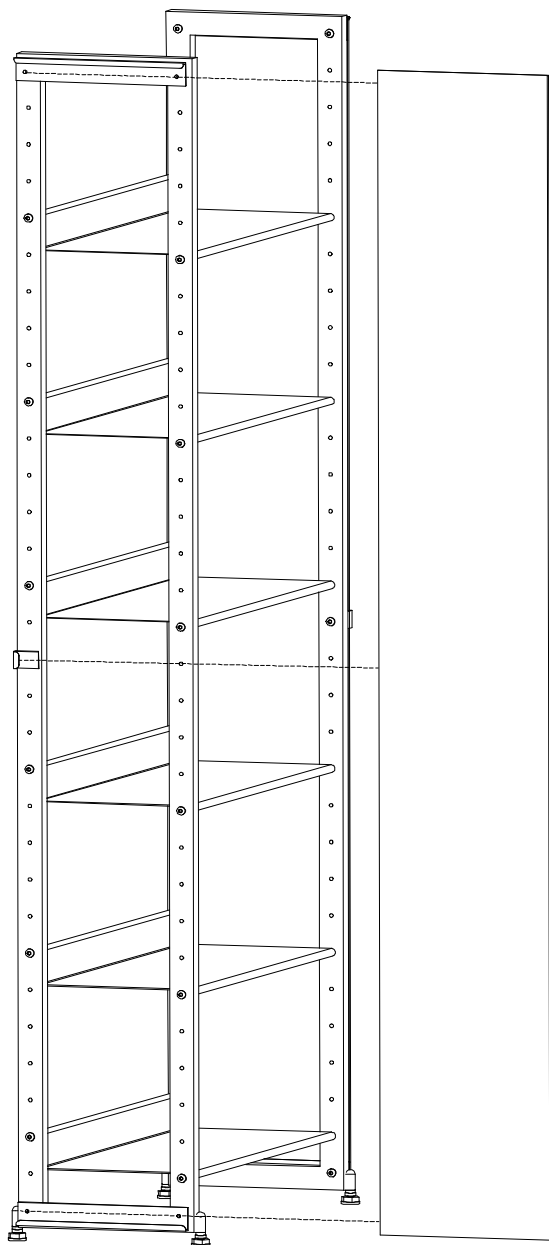

(If you have toppshelves, use **bolt no. 2** when assembling the upper strip. **See item 4.**

Assembly only one fitting, use **screw no. 1**.

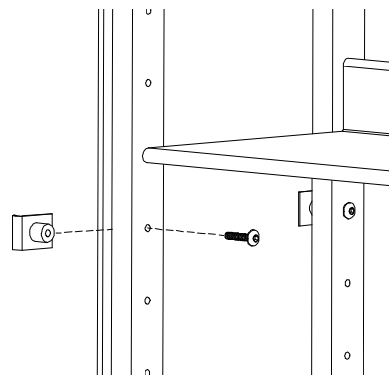

2.

Push the covering from the side so it will be fixed by the fitting.

3.

Lock the covering with the other fitting.

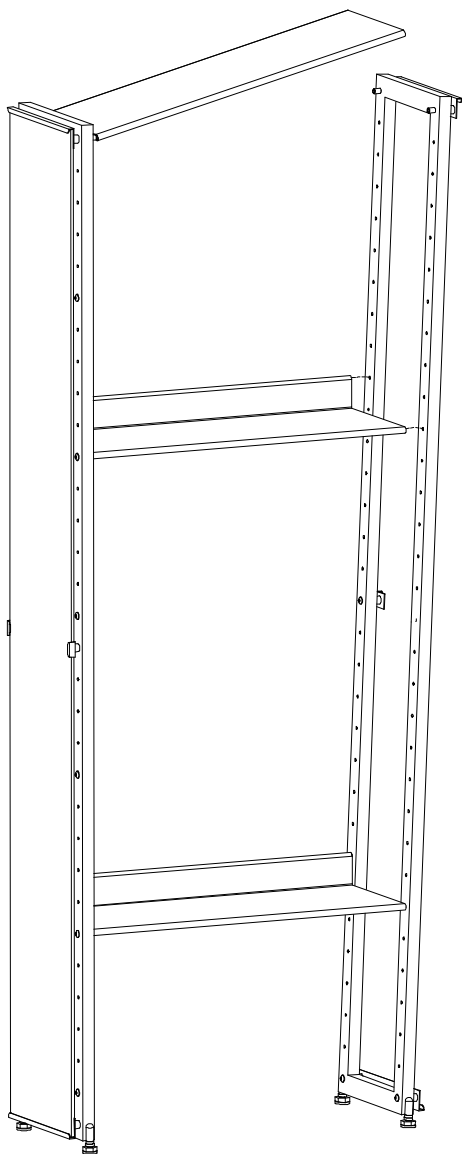

4.

When assembling with toppshelves, assembly the last section with the lower structural shelf first.

Now assembly the **upper strip with bolt no. 2** in the bookcase end. Separate the bookcases a little at the top then place the toppshelf (A).

Now finish the section according to item 1 and forward.
