

Assembly

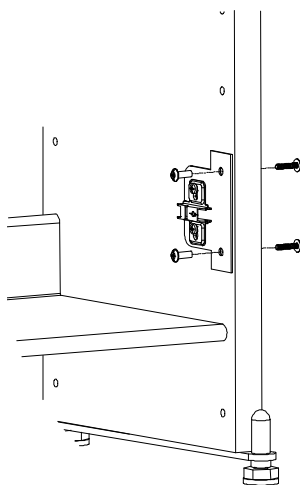

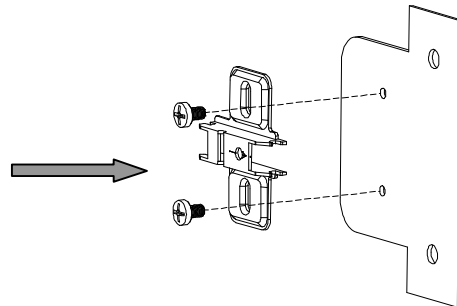

Instructions

LITTBUS Glassdoors

	No. 9 Socket M4x15			
	No. 10 Screw M4x20	Hinge hold	Hinge	Assemblage plate
	No. 11 Screw 3x12			
	No. 16 Screw M4x6			

1.

First put the hinge hold to the assemblage plate, use **screw no. 16**.

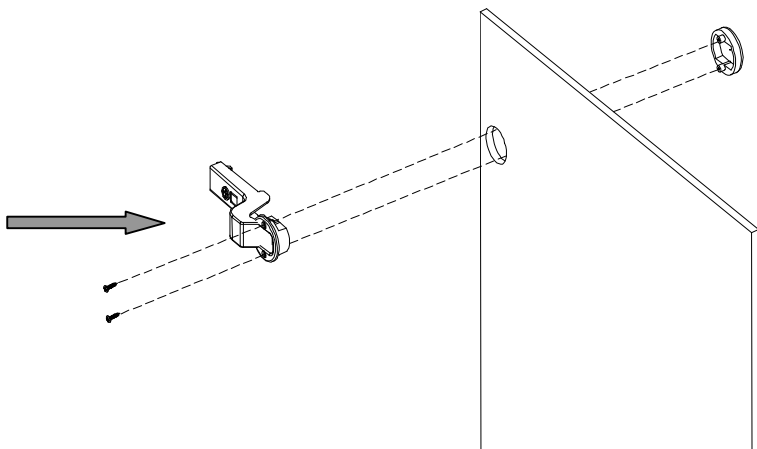

2.

Connect the assemblage plate to the panel, use socket no. 9 and Screw no. 10.

(The arrow on the hinge hold should point to the front).

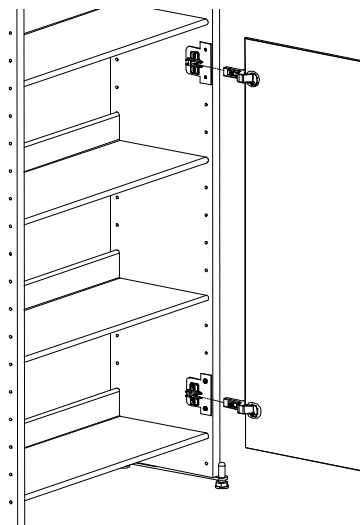

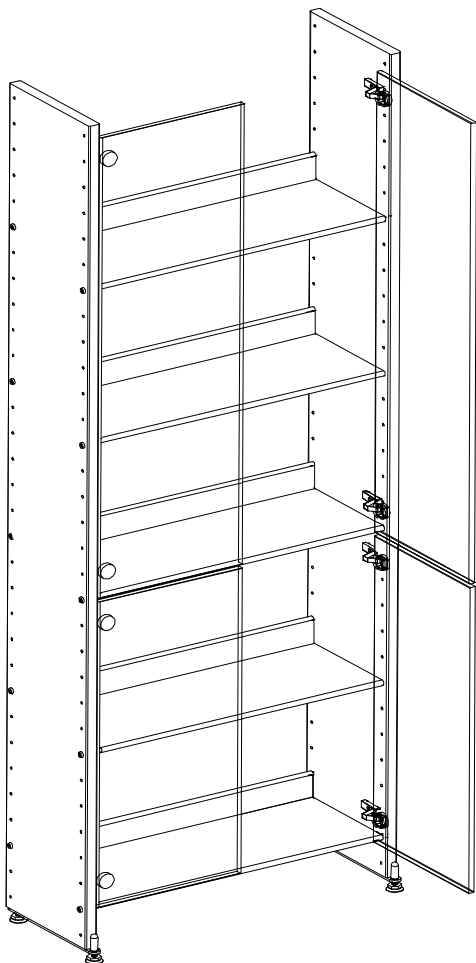

3.

Put the hinges in the holes on the doors, use **screw no. 11** to fix them.

4.

Connect the hinges to the hinge holders.
To make it easier, you can loose the screws (a little) that keeps the hinge hold fixed to the assemblage plate.
(Don't forget to draw tight again).

5.

Adjust the doors with the screws on the hinges.
