

Assembly

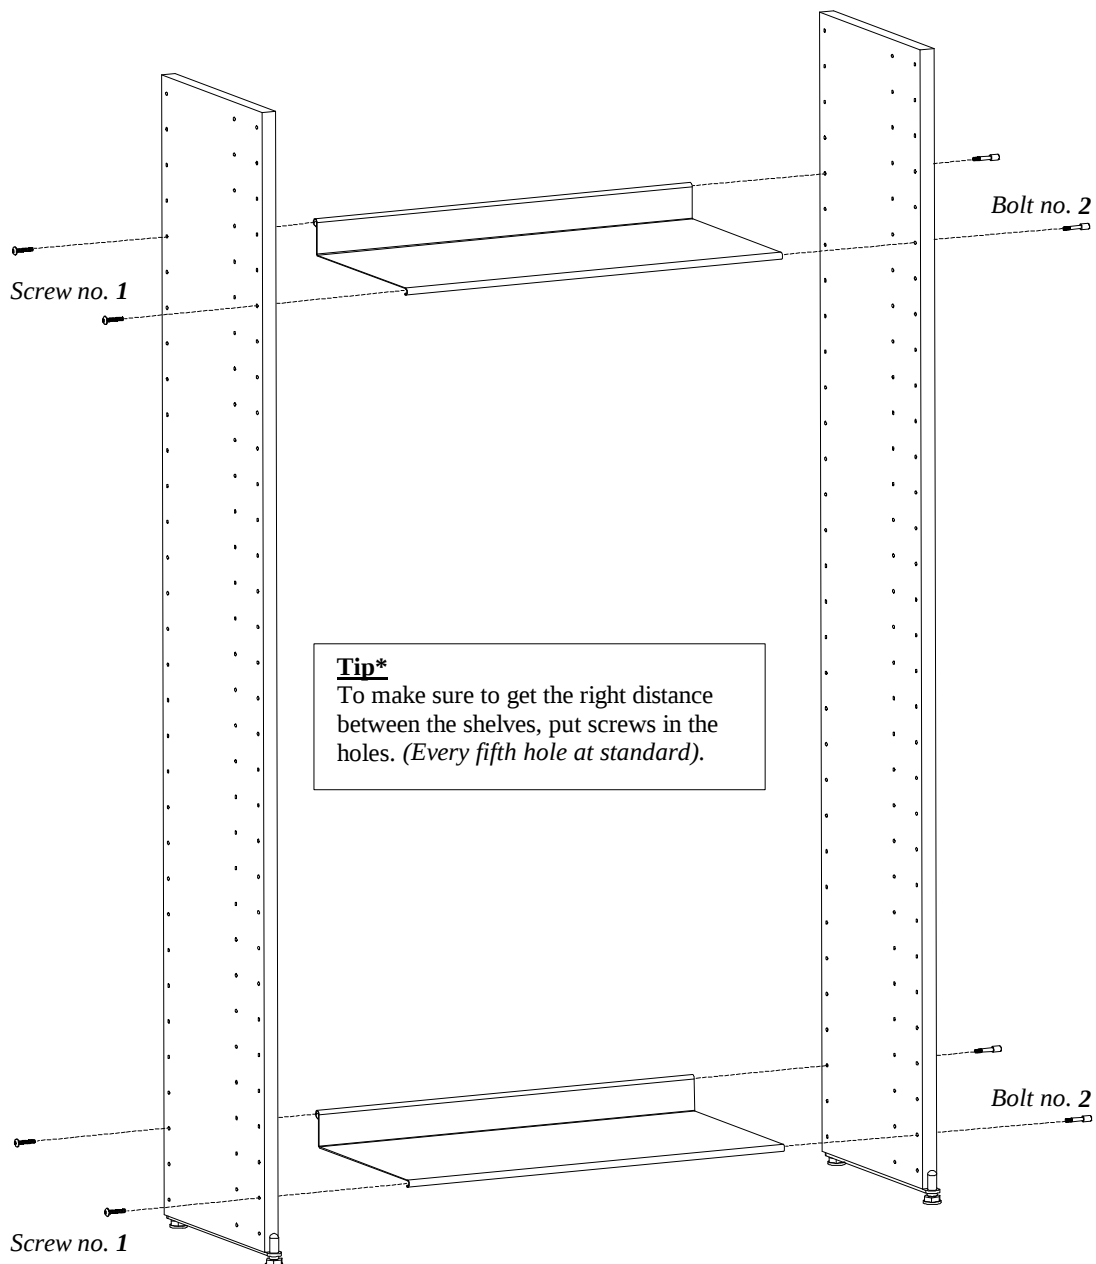

Instructions

LITTBUS 374 (Standard 6 shelves/section).

1.

Assembly the upper and lower structural shelf to the end panel, use **screw no. 1**.
Position the next uprighter and screw it to the structural shelves, use **bolt no. 2**.
See picture.

2.

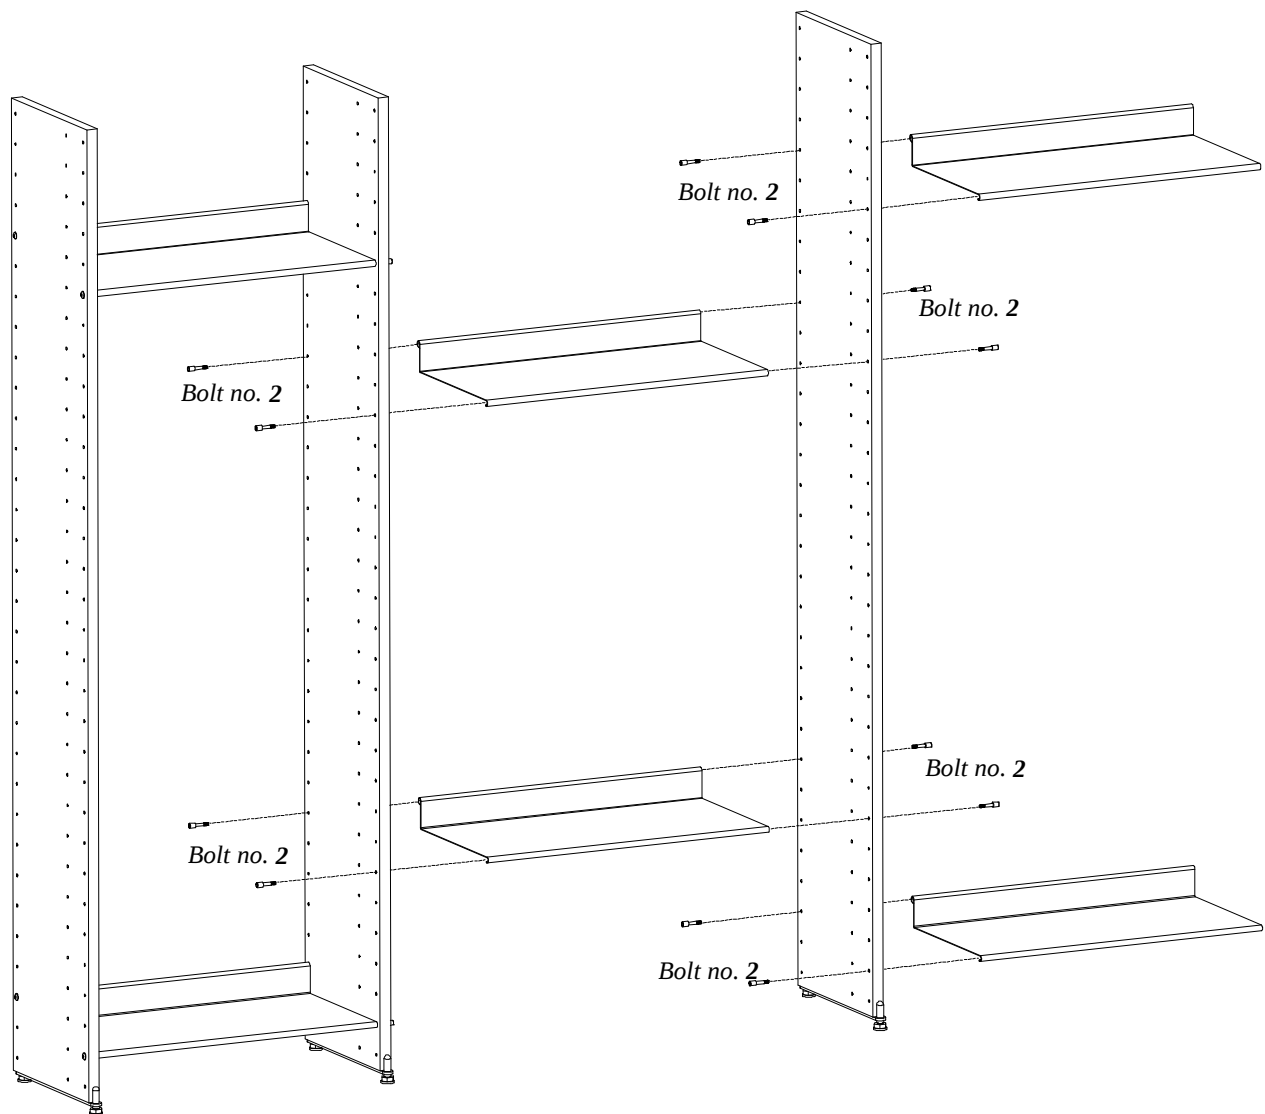

Continue to assemble structural shelves, use **bolt no. 2**.

Alternate up and down, until the required number of sections are assembled.

Finish with **screw no. 1**.

(At standard 6 shelves per section, in every fifth hole).

See picture.

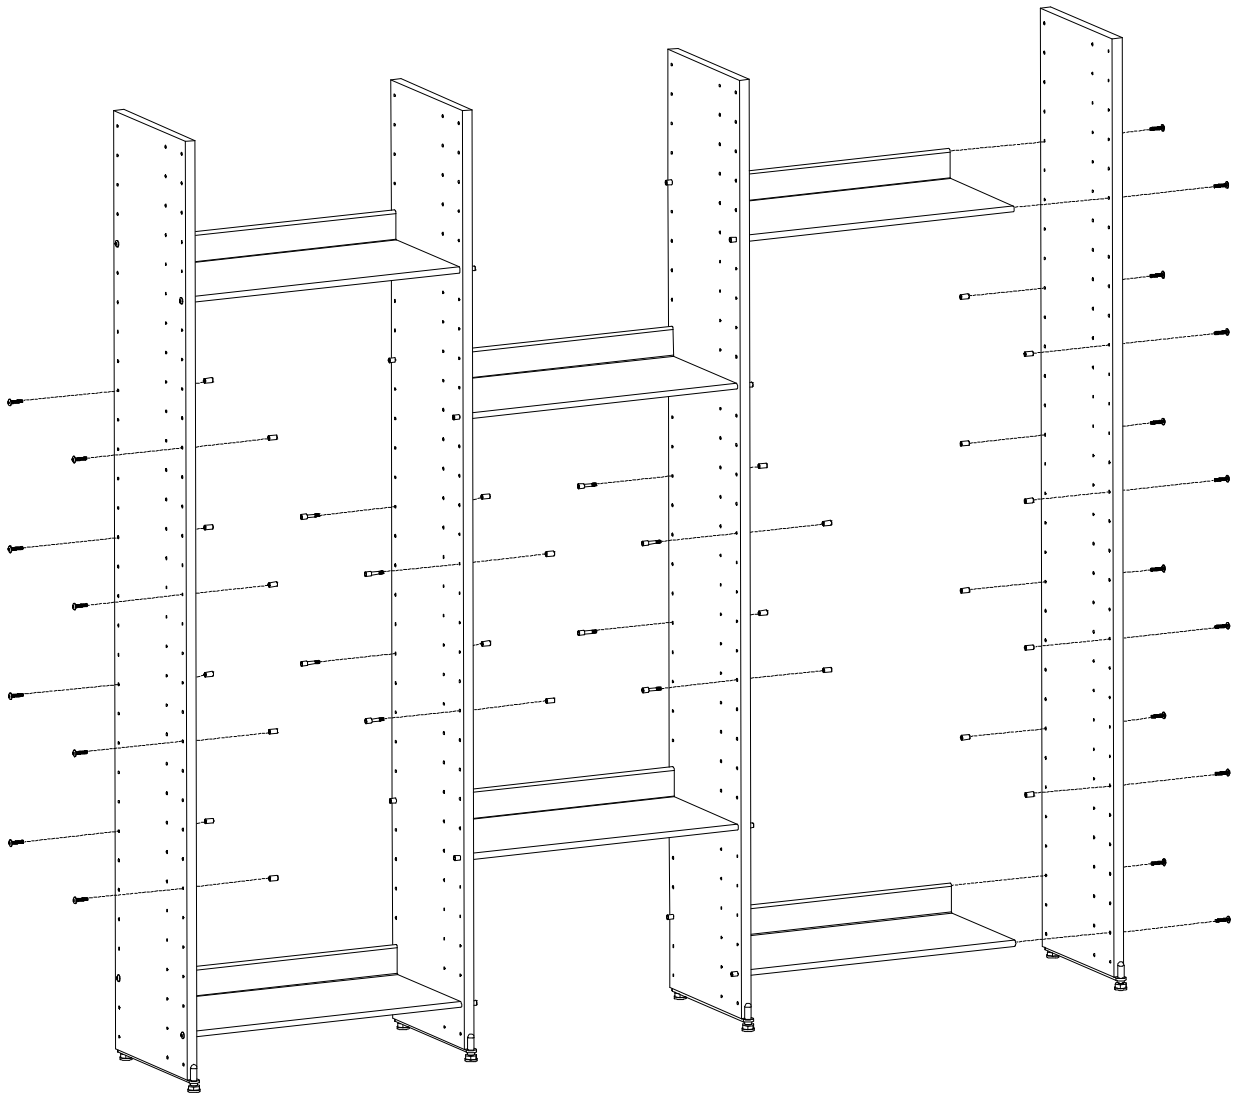

3.

Connect **sleeve no. 3** with **screw no. 1** in the end panels, (every fifth hole at standard).

At the inner panels connect **sleeve no. 3** with **bolt no. 2**, (every fifth hole at standard).

See picture.

4.

Place the loose shelves.

First locate the shelf front,

Then lower the back into place.

Assembling is completed.
