

- Steel -

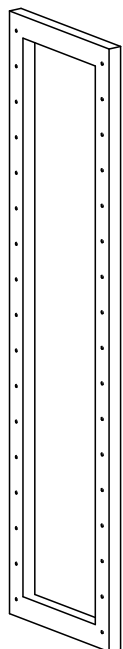

Before to start assembling...

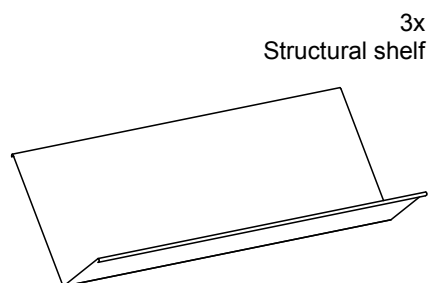

Do always start with a look at the packing note.

In the packing note you will find important information regarding measurements and how many of each part every position need.

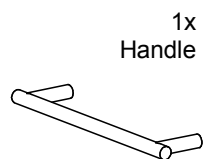

Mounting details

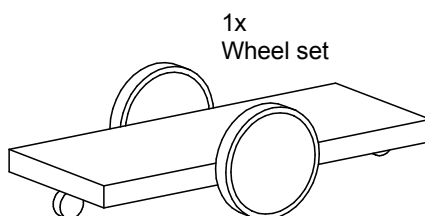

2x
Panel

3x
Structural shelf

1x
Handle

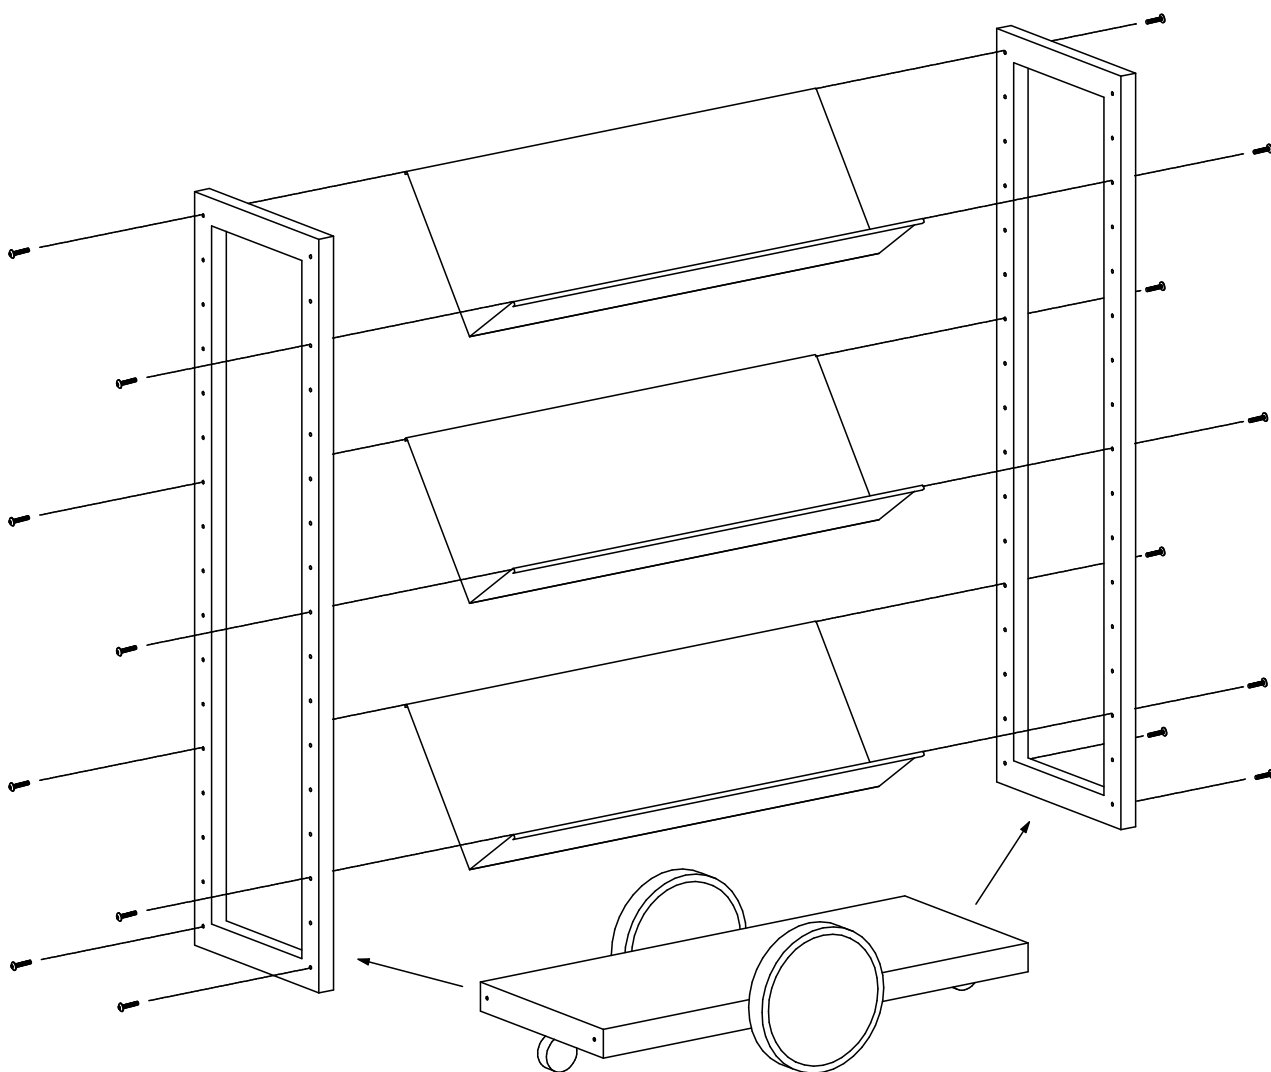

1x
Wheel set

18x
Screw M6x35

1

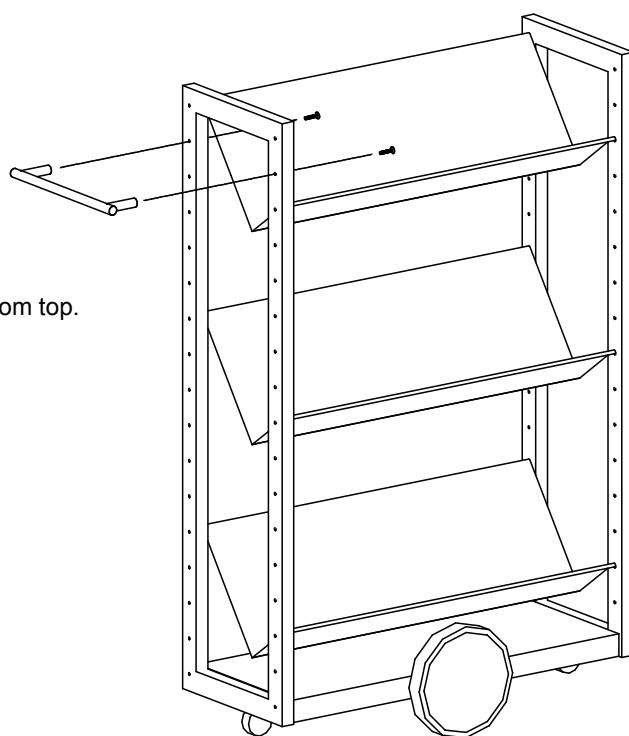

Start to assemble the structural shelves and the wheel set with screw (M6x35).
(See image below)

2

Attache the handle in the second hole from top. Use screw (M6x35) from the inside.

Assembling is Completed!

Good to know!
The shelves could be used for
flat or sloping display.
