- | | | |
|-------|---------|--------|
| No. 1 | M6 x 38 | screw |
| No. 2 | M6 x 32 | bolt |
| No. 3 | M6 x 20 | socket |

Topshelf

1.

Assembly **screw no. 1** with **socket no. 3** in the top hole.

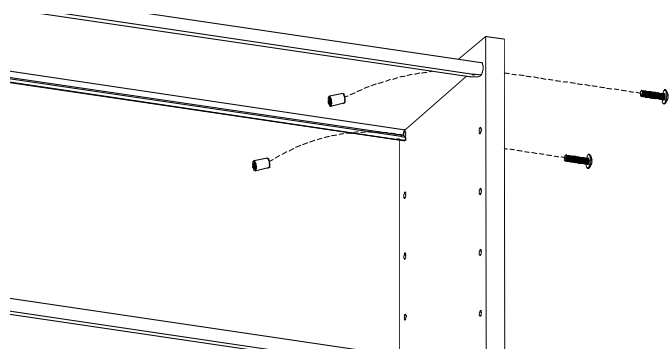

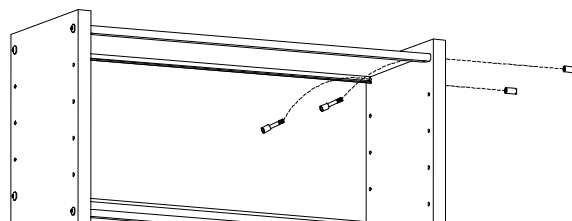

2.

Push the topshelf on the sockets and lower it in to place.

3.

Lead **bolt no. 2** through the topshelf in the top holes, connect with **socket no. 3**.
(When assembling just one topshelf go to number 4).

4.

Continue the assembling with topselves as in no. 2 and 3. Final, lead **socket no. 3** through the topshelf in the top holes and connect with **screw no. 1**.
