

# MagniLink TAB

# Gives great opportunities!

The MagniLink TAB is a complete and mobile tablet solution with high performance and user-friendly operation. Its space saving design makes it ideal for use in different locations – perfect for people on the go!

## **A complete solution**

This tablet solution based on a Microsoft Surface Pro gives the user a complete mobile solution, both for live camera viewing and for digital documents. Use it as a video magnifier with built in OCR, or as a complete computer with access to everything – gives endless possibilities!

Use the internal camera for reading or the high quality external camera for both distance and close-up viewing. The system provides the best possible condition for an efficient and creative everyday life.

## **Connect and communicate**

MagniLink TAB is easily connected to your network with WiFi and different accessories with Bluetooth. Internet and other standard applications are only a click away – with MagniLink TAB you can easily communicate with the rest of the world!

## **Flexibility**

MagniLink TAB has a touch screen with low vision adapted buttons. You can also control the unit by gestures or connect a Bluetooth keyboard and control it by hotkeys. The functionality is adaptable to the individual user by removing and customizing features.

## **Listen to your text**

The high performance software is included, and with the built in OCR and TTS (Text to Speech) your text can be read aloud. Several different viewing modes are available for increased reading speed, reading endurance and a more relaxed reading.

## **Truly mobile**

The unit is foldable and light weight with easy and quick startup – you can start working almost immediately. This makes the unit ideal for use in school environment or whenever you need to be mobile.
