

MagniLink One

The foldable MagniLink One is easy to use with high image quality and userfriendly operation. The premium materials, details and finish ensure that the unit is as stable as it is durable. It's the elemental video magnifier that really exceeds expectations.

Easy-to-use

The control panel with tactile buttons is very easy to operate – a few buttons are all that you need to improve your everyday life! It is easy to fold the unit up and down, and it can easily be stowed away or brought along on a trip.

With MagniLink One you can continue solving crosswords, doing needlework and reading even when your vision has deteriorated.

Premium materials

The high quality camera (Full HD), electronics and monitor provide an outstanding picture quality. The premium materials, details and finish ensure that the unit is as stable as it is durable. MagniLink One is designed both to look and feel good.

Low-vision adapted monitor

The MagniLink One’s 17” monitor is Low Vision adapted and offers an anti-glare surface, crystal clear sharpness and high contrast.

Practical case is included

Your unit comes in a practical carrying case that will ease transportation. The carrying case has orange details which make it easier to find zippers and pockets.

Convenient reading table

You can choose your MagniLink One with or without integrated reading table. The reading table is stable yet thin, has friction brakes and is a perfect tool when you move documents while reading, especially at high magnification. Please note that the reading table is factory-installed and needs to be ordered from the start.
