

MagniLink Zip

MagniLink Zip is a light, portable video magnifier that's easy to fold up and down. Yet it provides superior image quality and all the functions you need. When combined with a battery it becomes a really neat travelling companion.

Outstanding image quality

The best Full HD-camera along with multiple optical and software related techniques result in the most amazing picture ever in a video magnifier.

User friendly

The control panel with tactile buttons and knobs is very easy to operate. The unit is fully integrated and designed to both look and feel good.

Clever distance viewing

The unit has a built-in distance camera, adjustable both vertically and horizontally, for maximum comfort – great for students! A Mirror mode is also included.

Light and easy

MagniLink Zip is easy to fold up and down, and it can easily be stowed away or brought along on a trip. When combined with a battery (optional), it becomes a really neat travelling companion.

Computer connection

With USB/HDMI connection (optional), you can connect the unit to a computer or external monitor, and with TTS software (optional) text can be read aloud.

Market-leading reading table

The MagniLink Zip X/Y table (optional) is thinner than ever, yet it offers the same stability and quality as all other MagniLink X/Y tables, including friction brakes.

Low vision adapted monitor

You can choose between a 13" or 17" monitor. They have an anti-reflective coating, high contrast, natural color reproduction and high resolution.

This is included:
Reading camera,
carrying case, power
adaptor, polishing cloth,
and user guide.
