Altinn3

Status SAP leveranser

Funksjonalitet

Er levert program for

- Opprettesle av system og systembruker for Altinn
- Innhenting av Skattekort
- Innhenting av Samordnet trekk
- Sending/tilbakemelding av a-melding
- Import av sykemeldinger
- Import av krav om sykepenges
- Rapportere nærmeste leder

Planlagt 31.10.2026

- Ny Inntektsmelding sykdom
- Oppgjørsrapport (K27)

Funksjonaliteten

“De reetablere tjenestene”

Import av Sykmeldinger – infotypes 3332

Nye program

- HNOCSCKNT_REQ_A3 (PC00_M20_SCKN_REQ_A3)
- HNOCSCKNT_RES_A3 (PC00_M20_SCKN_RES_A3)
- HNOCSCKNT_SYNC_A3 (PC00_M20_SCKN_SYNC_A3)

3810015 - HRNO: LC Nearest Leader Reports for Altinn3 API

Nye program

- HNOCNLDR_REQ (PC00_M20_NLDR_REQ)
- HNOCNLDR_RES (PC00_M20_NLDR_RES)

HNOCNLDR_REQ (transaction PC00_M20_NLDR_REQ) — fetches open nearest-leader requirements from NAV and registers them as B2A documents in SAP.

HNOCNLDR_RES (transaction PC00_M20_NLDR_RES) — processes B2A documents, allows the HR administrator to identify the nearest leader, and submits the manager's details back to NAV. Also supports proactive assignment and revocation of a nearest-leader assignment without a pending NAV requirement.

Programmene bruker samme Badi for å identifisere leder som forrige program, HNOCNLDR.

EDAG error response handling adjustment

Marit Andersen · 1 month ago

There are two issues corrected in this note. Please implement it as soon as possible.

3792360 - HRNO: EDAG error response handling adjustment

Problem in transformation of the feedback, error with processing response occurs if a new tag is present in the response

The processing of the feedback is not ready when the dialogId for getting it is received. Status 404 (=not found) is given since we ask before it is finished.

Restart process fra step

Changing the status in B2A to repeat failed execution step:

1. Check that the SAP Cloud Integration Package **SAP ERP Integration with Norwegian Altinn 3 Interface** was updated to the latest version
2. Open the transaction SM30 and add the following status change to the view **V_T50BG:**
| ALT3 | EDAG | Error – Process Again | 00 | In Process | XX
Where XX stands for the step you need to repeat. Use the following values for XX:
00 – first step, uploading of the file
01 – second step, check status of upload (not status of processing!)
03 – submit the uploaded file for processing (do not use unless you received confirmation from the previous step that file is ready for processing)
04 – check if feedback exists in dialog portal already and retrieve the id if it does
05 – retrieve and process feedback

Please always check in your B2A record which step was the first to fail. See the log of the B2A record to find the last step executed without errors. In case the step is a status check (step *Poll upload response*), also check the response says the record is ready for submission, otherwise repeat this step as well. Each call can only be executed if the previous steps were carried out correctly!

HR-B2A: Valid Manual Status Change

Area	Doc....	Status	S...	Status	S...	Docu.
ALT3	edag	Error - Process...	00	In Process		

This will allow you to move the message in the **Error – Process again; Connection error** status to an executable status for the step needing repeating

3. Returning to transaction PB2A, select the line in wrong status and choose the status change button from the menu above

In the new window, choose new status **In Process; XX** and save

4. The line should now be executable again

Verify the status is correct. Then you can continue processing.

A-melding-tilbakemeldinger feiler på Dialogporten

An update has been posted

Vi opplever fortsatt forsinkelser i behandlingen av enkelte a-melding-tilbakemeldinger som ble sendt mellom kl. 06:00 og 10:00 i dag.

Arbeidet med feilretting tar lengre tid enn først antatt. Ny status publiseres så snart vi har mer informasjon.

Statsbudsjettet

Hva vil kreve endringer?

Statsbudsjettet 2027

Foreslår milliardkutt i inntektsskatten – største på over 20 år

^ Fagforeningsfradrag

Regjeringen foreslår å prisjustere fradrag for fagforeningskontingent fra 8 700 kroner til 8 950 kroner.

^ Trinnskatt

Regjeringen foreslår at satsene i trinnskatten holdes uendret i 2027. Det gir satser på 1,7 prosent i trinn 1, 4,0 prosent i trinn 2, 13,7 prosent i trinn 3, 16,8 prosent i trinn 4 og 17,8 prosent i trinn 5.

Innslagspunktene i trinnskatten foreslås justert med anslått lønnsvekst på 4,0 prosent. Det gir innslagspunkt på 235 150 kroner for trinn 1, 331 050 kroner for trinn 2, 754 050 kroner for trinn 3, 1 019 300 kroner for trinn 4 og 1 525 900 kroner for trinn 5.

^ Trygdeavgift

Regjeringen foreslår å redusere trygdeavgiftssatsene på lønn/trygd og næringsinntekt med 0,2 prosentenheter i 2027, til henholdsvis 7,4 og 10,6 prosent. Satsen for pensjon videreføres på 5,1 prosent. Nedre grense for å betale trygdeavgift foreslås videreført uendret på 99 650 kroner.

^ Firmabil

Regjeringen foreslår forbedringer i firmabilbeskatningen slik at den i større grad gjenspeiler kostnadsforskjeller mellom ulike motortyper.

Endringer på firmabilbeskatningen

Forslaget til ny modell ligner på den modellen vi har i dag, men det tas inn en kostnadskomponent i beregningen.

Etter dagens modell beregnes fordelene til 30 % av bilens listepreis som ny opp til kr 370 300 og 20 % av overskytende listepreis.

I den nye modellen settes fordelene til 20 % av bilens listepreis som ny (beløpsgrensen på kr 370 300 fjernes) tillegg et beløp for kostnader ved bilholdet. Denne kostnadskomponenten inntas i den årlige satsforskriften og differensieres ut fra ulike motortyper.

Anslag til kostnadskomponent for 2027 og forslaget til bilpriskomponent

Motortype	Kostnadskomponent	Bilpriskomponent - grunnlag	Bilpriskomponent - sats
Elektrisk	kr 16 200*	Bilens listepreis som ny (som i dag)	20 %
Bensin	kr 39 700*		
Diesel	kr 28 100*		
Ladbar hybrid	kr 22 400*		

*kostnadskomponenten er oppdatert med de nye beløpene i forslag til statsbudsjett for 2027

Ikke-ladbar hybrid med bensin forbrenningsmotor - som bensinbil

Ikke-ladbar hybrid med diesel forbrenningsmotor - som diesebil

Andre biler - som elbil

Eksempel - elbil med listepriis kr 800 000

Dagens beregningsmodell:	
$\text{kr } 370\,300 \times 30 \% =$	kr 111 090
$\text{kr } 429\,700 \times 20 \% =$ (kr 800 000 - kr 370 300)	kr 85 940
Sum skattepliktig fordel	kr 197 030
Ny beregningsmodell:	
Bilpriskomponent: $\text{kr } 800\,000 \times 20 \% =$	kr 160 000
Kostnadskomponent elbil	kr 16 200
Sum skattepliktig fordel	kr 176 200

*) Eksempelet er tatt fra Simployer

Blir det krav om å rapportering på flere beskrivelser i a-meldingen ??

A-meldingen

A-ordningen - informasjonsmøte, 22. oktober

Publisert: 19.10.2026 Oppdatert: 19.10.2026

Vi inviterer til nytt informasjonsmøte torsdag 22. oktober kl. 09:00 – 10:00

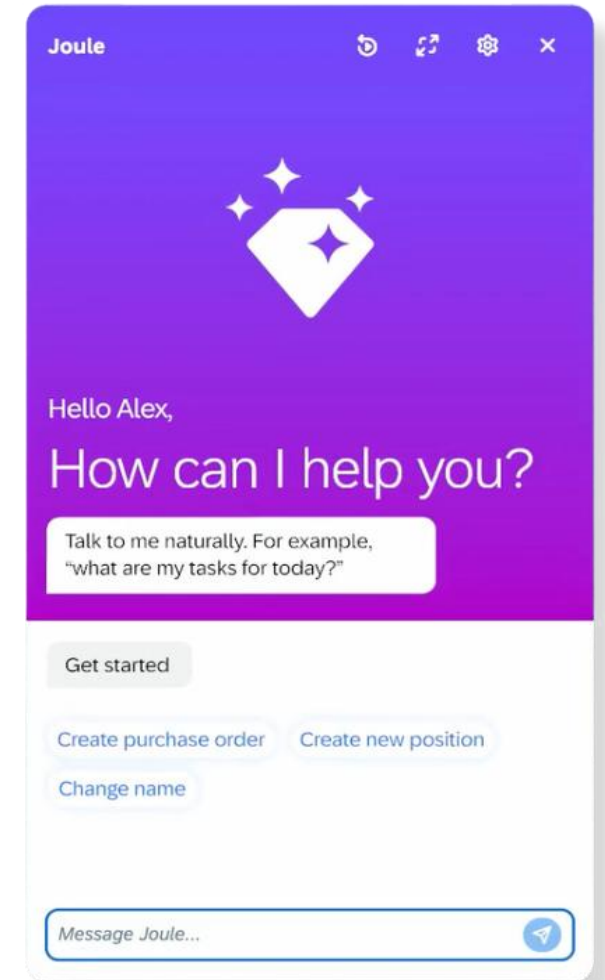

Vi har disse temaene på programmet:

- Informasjon fra a-ordningen
- Statsbudsjett 2027

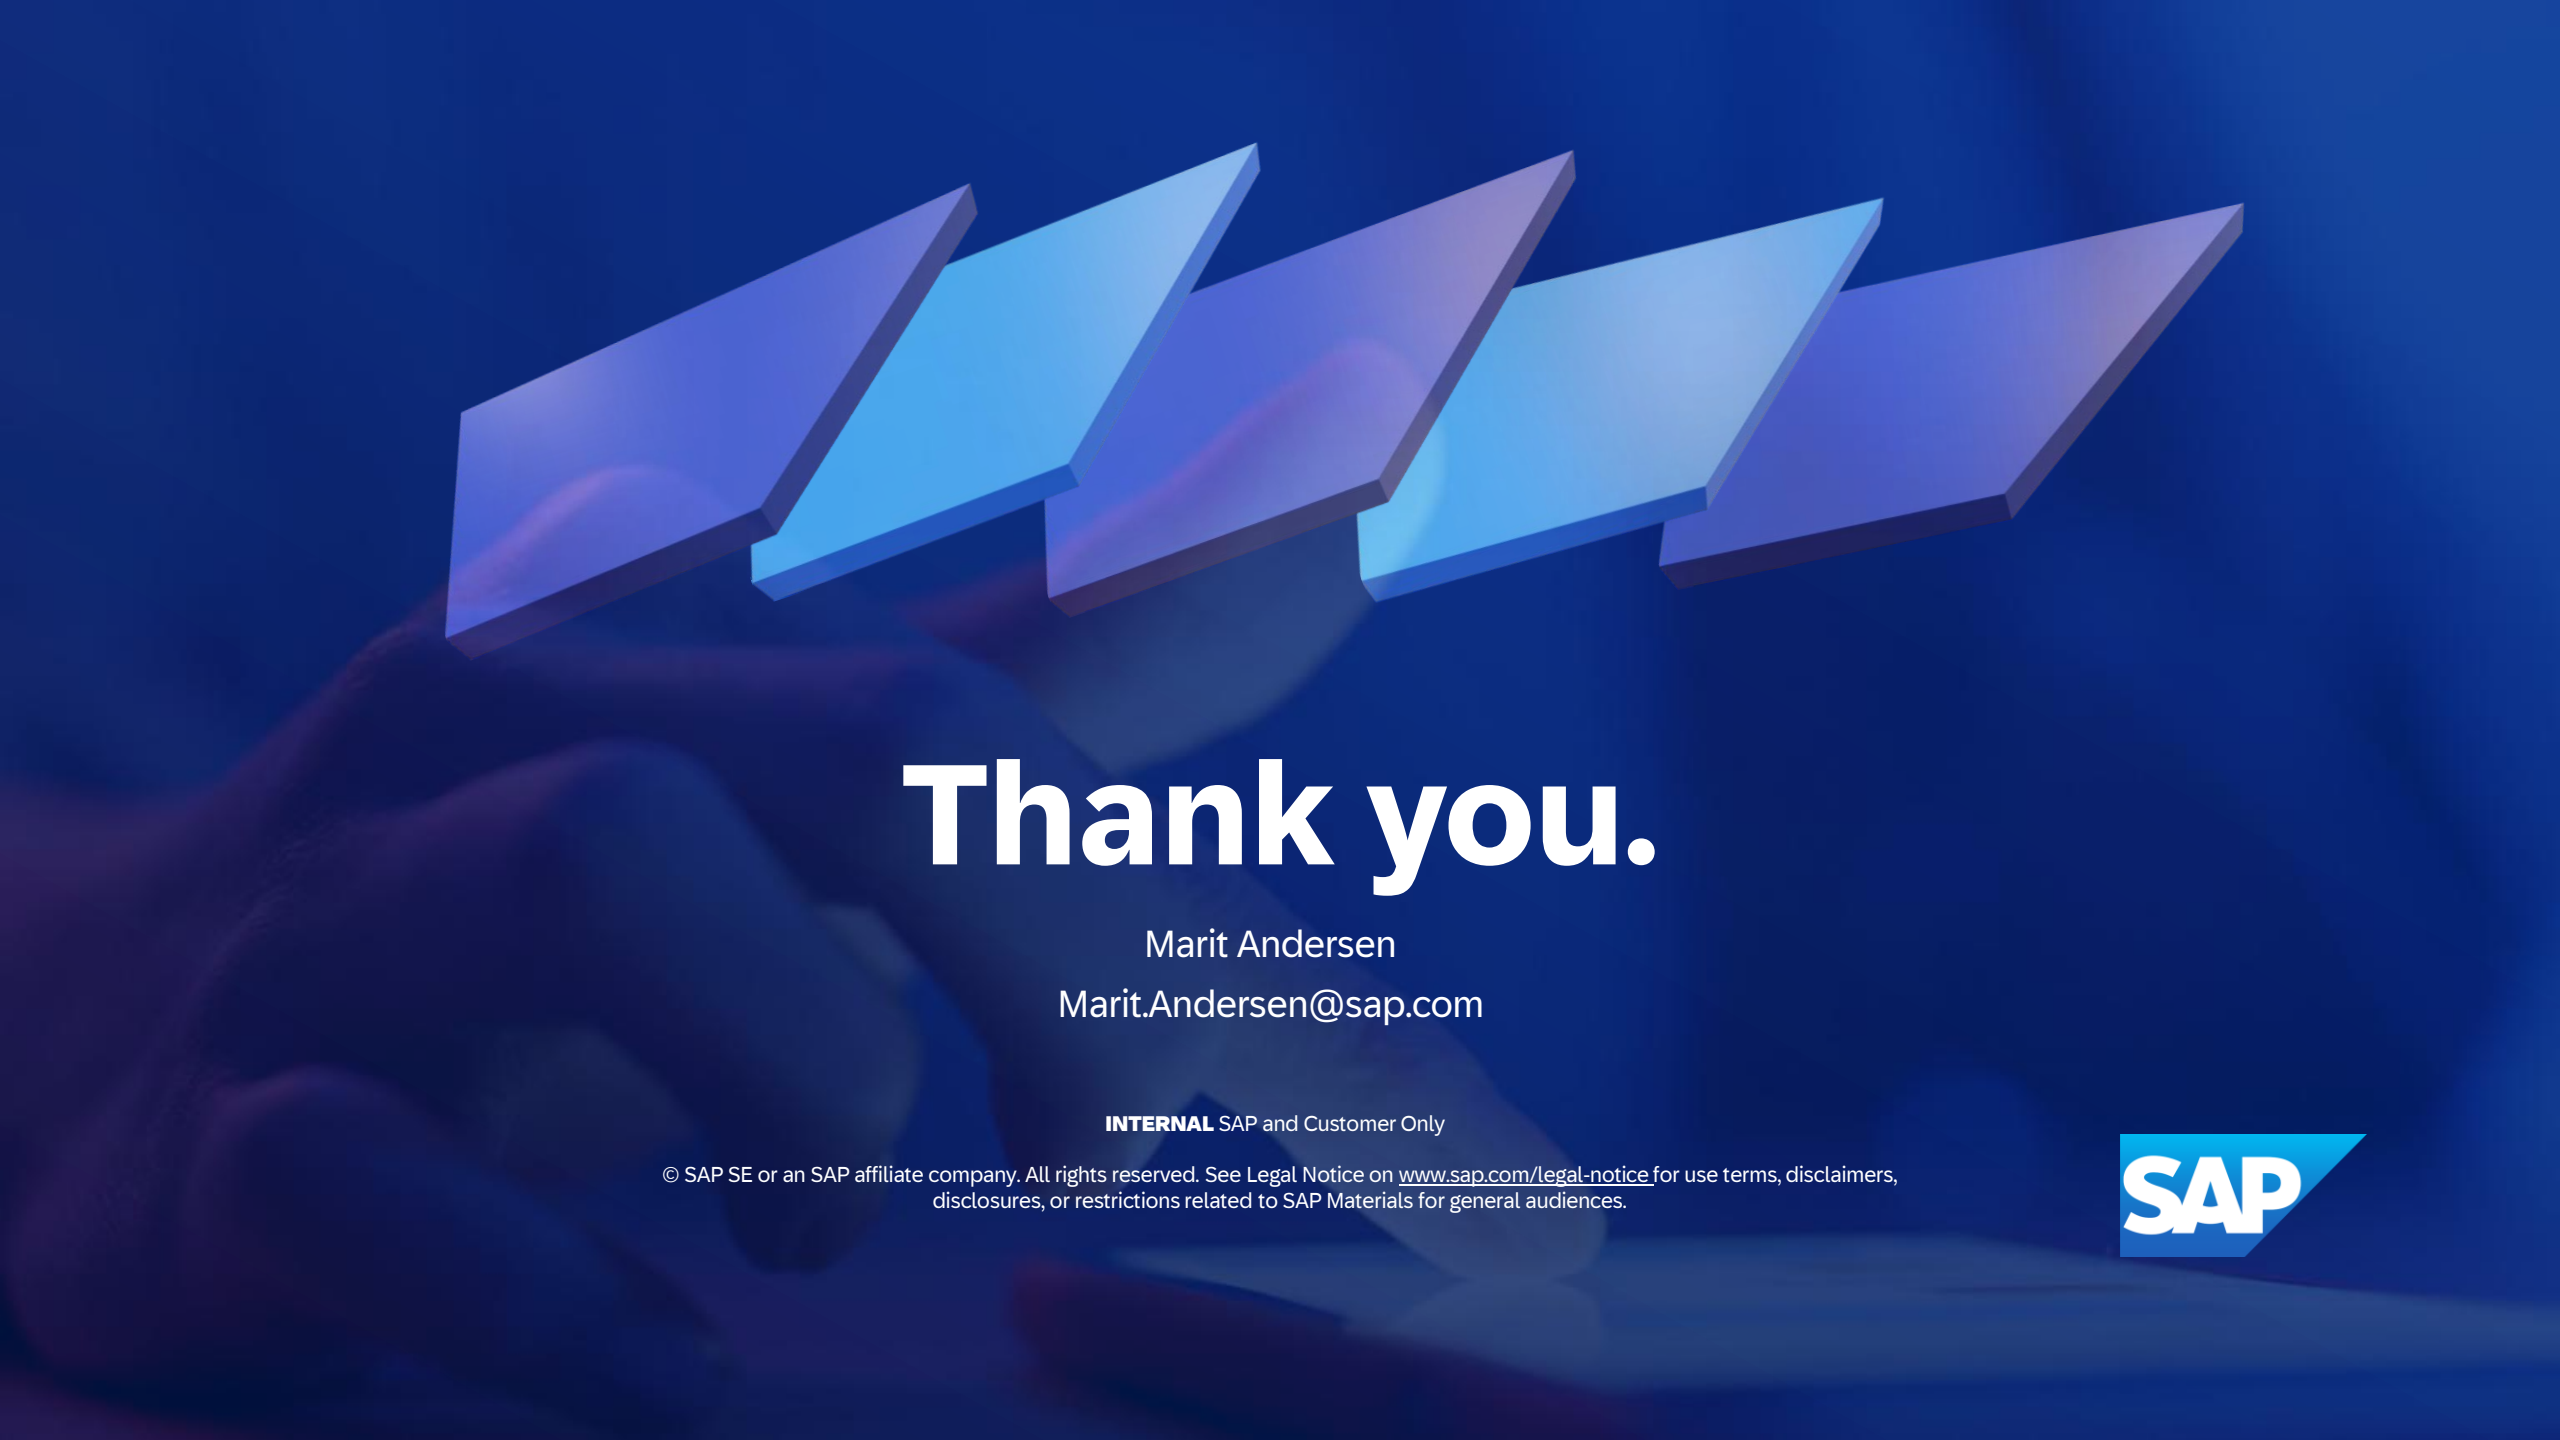

<https://www.skatteetaten.no/samarbeidspartnere/sluttbrukersys-temer/sbs-nyheter/a-ordningen---informasjonsmote-22.-oktober/>

Meet me at the SAP booth
