SAP's acquisitions

up to 2020

37
acquisitions

Aligning our platform along customer requirements*

Extensibility and ecosystem

Customer and partner focus

“SAP’s core value proposition is the applications on top of the platform, as well as extending those applications – that’s where the competitive advantage is.”

Data-to-value

SAP and customer focus

“SAP is entitled to define the ERP data model.”

Integration

SAP and customer focus

“Please don’t forget your key differentiator of the past: the end-to-end process integration. That is the reason why we are an SAP customer! And combine it with your new cool tools, then we will win together.”

Development agility and speed

SAP and partner focus

“When you grow from zero to more than 1.5 million orders per day, you need a solid platform to support IT projects that protects and improves that performance.”

**voiced by customers and analysts*

Business Technology Platform

Summary and roadmap

Summary

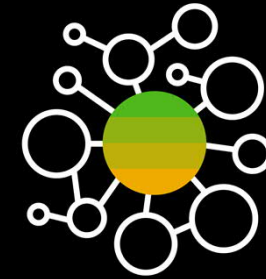

Key takeaways

SAP has taken big steps forward in delivering the integrated intelligent enterprise for **one common set of suite qualities**.

Business Technology Platform helps to accelerate the move to the cloud by combining data, applications and intelligence in a **well integrated** manner.

SAP's **integration strategy** provides our customers with a clear roadmap for their transition into an intelligent enterprise.
